Pursuing Bachelor's in Software Engineering | Passionate about Advancing Web Technologies

As an impassioned Web Development student, I am deeply dedicated to pushing the boundaries of technology. My enthusiasm for navigating the complexities of web development drives me to explore and implement state-of-the-art solutions. This fervor not only encompasses technical skills but also embraces challenges with a proactive and adaptable mindset. I am eager to channel this passion to contribute to innovation and navigate the ever-evolving realm of Web Development.

Core Skills	Responsive Web Design User Interface (UI) Design Front-end Development Back-end Development Full Stack Development API Integration JavaScript Frameworks (React)
Key Competencies	Focused Problem-Solver Independent Learner Persistent Coder Technology Enthusiast
Technical Skills	HTML CSS JavaScript ReactJS MongoDB ExpressJS NodeJS Spline Figma Tailwind CSS ChakraUI Git Vite

Career Highlights

Social Media Manager - MUARKA, CAPDC, Comsats Lahore Debating Society

- Created and scheduled engaging content, including posts, stories, and event updates, to build anticipation and increase attendance. Monitored and responded to audience engagement promptly, fostering a sense of community and excitement around the event.

PROFESSIONAL EXPERIENCE

Web Intern | DevBunch - Lahore, PK (On-Site)

July 2024 - Sept 2024

- Enhanced skills in integrating user authentication with Firebase and managing user data with MongoDB, implementing CRUD functionality for client and product management, handling images with Cloudinary.
- Developed expertise in designing comprehensive systems for order management and financial tracking, including order processing, invoice generation, and virtual payment systems without external gateways.
- Designed a user-centric UI for a food delivery app in Figma, creating intuitive workflows for rider, owner, and admin roles.

ACADEMIC PROJECTS

Social Media App – MERN, ChakraUI

- Engineered a dynamic posting system allowing users to create and share posts, complete with photo uploads, providing a visually engaging platform for content sharing.
- Implemented comprehensive profile management features, enabling users to upload profile pictures, add bios, and personalize their profiles, enhancing user identity and interaction on the platform.
- Developed social interaction functionalities including user follow systems, post likes, and comment sections, fostering a connected and interactive community. Additionally, integrated secure user authentication for seamless login and registration experiences.

ERP-System – MERN, Tailwind CSS

- Integrated Google login using Firebase to streamline user authentication, ensuring seamless user onboarding and automatic addition of user data to a MongoDB database.
- Implemented CRUD functionality for client and product management, with image support from Cloudinary.
- Managed client ledgers and implemented a virtual payment system to track and handle payments without integrating external payment gateways, providing a complete solution for client financial tracking.
- Developed an order management system for processing, invoicing, and order confirmation.

Portfolio – ReactJS, EmailJS

- Designed a fully responsive portfolio website, showcasing my expertise in CSS by ensuring optimal display and functionality across all devices, from desktops to mobile screens.
- Integrated EmailJS into the portfolio, enabling visitors to contact me directly via email through the website, facilitating seamless communication and networking opportunities.

Sep 2022 - Jan 2024
